Control of E.O. Smith given back to Mansfield

By Kevin Librett
Staff Writer

The university Board of Trustees voted unaminously Friday on recommendations to transfer ownership and governance of E.O. Smith High School from UConn to the towns of Mansfield and Ashford. This decision came despite statements made Thursday by Ashford Board of Education members and the Smith School Parents' Association, that they do not support these recommendations.

The recommendations are the result of negotiations since October between Mansfield, Ashford, and the university. They call for a transfer of ownership and governance of Smith School to the towns, jointly or separately, by 1987.

Mansfield started seeking control of the high school more than a year ago because the university lacks sufficient funds to make repairs on the building. Also, town control would make Mansfield eligible for a 75% reimbursement for repair costs from the state.

Jane Ann Bobbitt, mayor of Mansfield, said at a meeting of the Board of Trustees' Institutional Policy Committee Thursday that she fully supports the trilateral recommendations. She said the the university offered a "great service" to the towns 25 years ago by providing the high school. "But the unique circumstances of ownership and governance have provided frustration and problems for the university and community," she said.

"After years of consideration, I feel it is time for the towns to assume the responsibility for the education of our children," Bobbitt said. "We shall do our best as a community to support a

Reagan tells Congress to sell arms to Jordan

WASHINGTON (AP)—The Reagan administration has quietly informed Congress it intends to sell up to 1,600 antiaircraft missiles to Jordan while trying to persuade Israel to go along with plans for a U.S.-armed Jordanian strike force, sources said Monday.

The proposed sale surfaced as Jordan's King Hussein held talks with President Reagan, Secretary of State George P. Shultz and Robert C. McFarlane, Reagan's national security advisor, on U.S. policy toward Lebanon. President Hosni Mubarak of Egypt was scheduled to follow suit Tuesday.

Meanwhile, Larry Speakes, the White House spokesman, said Reagan is moving toward a withdrawal of the American Marines from Beirut to U.S. ships off the Lebanese coast within 30 days.

"It is feasible to have them out in 30 days," Speakes said. "We will do so if it is consistent with the political and military situation."

Speakes said Reagan is "in agreement" with a plan submitted

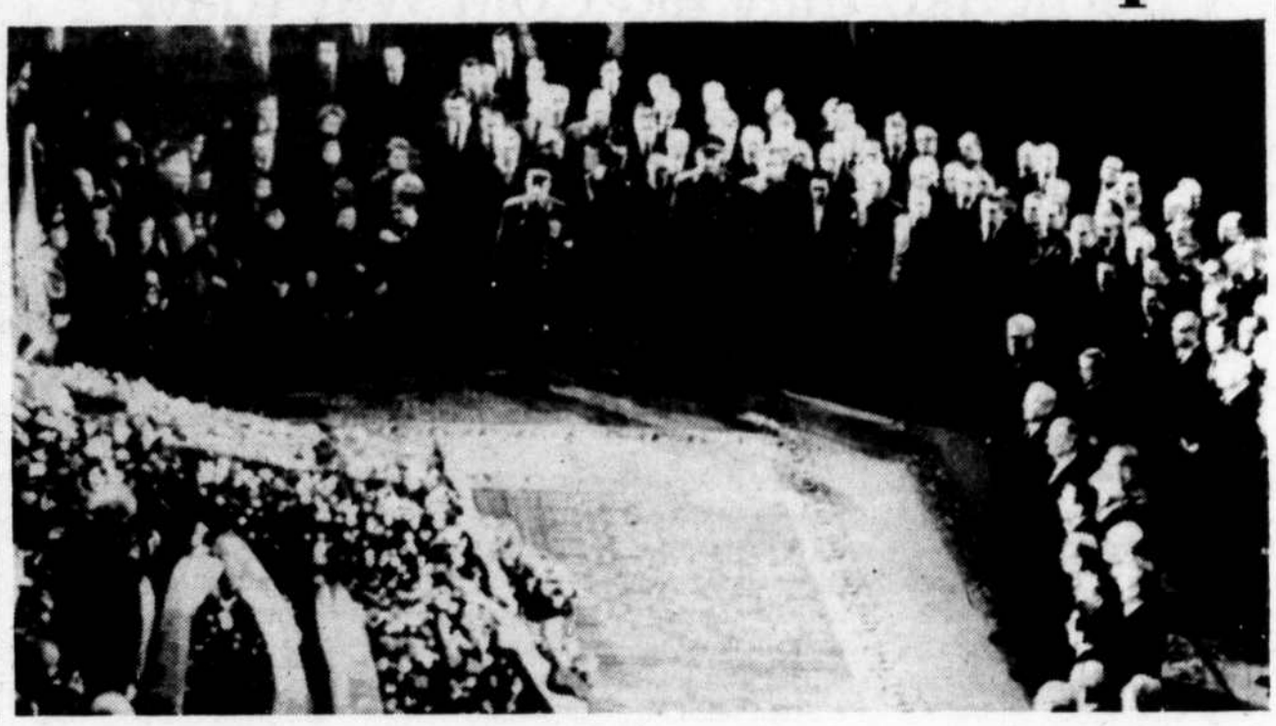
Chernenko to succeed Andropov



Leaders of the Soviet Union's Communist Party and state are gathered to pay last respects to Yuri Andropov, whose body lies in state in the House of Union (UPI photo).

MOSCOW (AP)—Konstantin Chernenko, a pillar of the Kremlin's old guard, was named leader of the Communist Party on Monday at the age of 72—the oldest man ever to achieve the peak of Soviet power.

Chernenko, an ally of late President Leonid Brezhnev, succeeds Yuri Andropov, who died Thursday at 69 after 15 months in office.

When Brezhnev died in November 1982, it was believed Chernenko was Andropov's rival for the party leadership. After Andropov won, it appeared Chernenko's political future was in doubt, but he regained enough influence in the top party ranks to grasp the top party post.

Chernenko was chosen by his 11 fellow members of the ruling Politburo. Unanimous approval Monday by the Central Committee was announced by the official news media at 2 p.m. as dignitaries from around the world gathered to attend Andropov's funeral.

The funeral will be Tuesday in Red Square.

It was not known if Chernenko would speak privately with Vice President George Bush and Senate majority leader Howard Baker, Jr., who are representing the United States at Andropov's funeral.

Speaking before the Central Committee, Chernenko attacked Western leaders as posing a threat of nuclear war. He said the Soviet Union would strive to avert war by maintaining its nuclear strength.

The new general secretary does not yet have the extra title of president, with which Andropov and Brezhnev consolidated their power. The presidency will probably remain vacant until the Supreme Soviet—parliament—next meets. Parliament elections are set for March 4.

Police commission charges ex-chief

BRIDGEPORT (AP)—The police commission voted Monday to press ahead with formal charges against ousted police Superintendent Joseph A. Walsh in an effort to dissuade a judge from reinstating the controversial official.

The eight-member Board of Police Commissioners voted unanimously to file a list of 180 charges against Walsh, ranging from allegations of racial discrimination to giving the commission a fraudulent report.

The list of charges is the latest salvo by the administration of Mayor Leonard Paoletta against Walsh, whom the board forced into retirement in December but who was reinstated by a Superior Court judge last week.

Judge Robert Berdon ruled that Walsh had been illegally ousted—in violation of the city's civil service ordinance and state and federal law. He ordered Walsh reinstated as of Monday, but stayed that ruling on the condition that the city show cause why Walsh should be removed.

The police commission, working against a midweek deadline, drew up the formal complaints against Walsh late Monday. It is now up to Berdon whether to accept the city's latest challenge to the 42-year police veteran.

Marines will be moved to ships off Lebanon

WASHINGTON (AP)—The Reagan administration has set in motion plans to withdraw the U.S. Marines from Lebanon before mid-March, officials said Monday.

"The White House has made a decision to get the Marines out of Beirut and on the amphibious ships offshore within 30 days from last Saturday," said an administration official who spoke only on condition he remain anonymous.

"The clock started then," added this official, who said the decision was made after Defense Secretary Caspar Weinberger delivered the Pentagon's proposal, for withdrawing the Marines. to the White House last Friday.

Such a timetable would bring the 1200-1300 Marines serving in the multinational force from their positions at the Beirut International Airport to the ships by March 12.

Officials said last week a relatively small number of U.S. military personnel, perhaps 200 or so, would remain to guard the U.S. embassy, train the Lebanese army and handle communications and other tasks.

John Paradis

Chernenko may aid Cold War thaw

The announcement of Konstantin Chernenko as the new Soviet leader presents the Reagan administration with an opportunity. An opportunity to thaw the cold-war relations between the United States and the Soviets.

Chernenko, 72, who rose to prominence as then President Lenoid Brezhenev's closest aide, can speak well the language of detente.

He was, for instance, quoted by the Sunday *Times* of London as saying it was "more important than ever today to intensify efforts for mutual understanding with the United States." Whether or not he will run Russia under collective leadership is still unanswered but his appointment may be good news.

Secretary of State George P. Shultz has said that the administration would "remain ready for a constructive and realistic dialogue with the Soviet Union." He then added only "if there is reasonable opportunity for some substantial accomplishment."

The President has hinted at a possible desire to meet the new Soviet leader, saying that a summit meeting could solve some of the problems between the two super-powers. But, as Press Secretary Larry Speakes realistically emphasized, the President would only be interested in such talks if there were "prospects of meaningful results."

Typical Reagan, typical Reaganisms.

Since the Andropov era, the Reagan administration's policy towards the Soviets has wavered between irascibility and the contention of a desire to be flexible.

The State department's current position, molded in a reelection year, asserts that the President has "rebuilt our strength" and can now engage the Soviets in a constructive dialogue.

How constructive such dialogue can be, however, must be bluntly answered. The President is admanant that there can be no progress on nuclear arms limitation until the Soviets modify their behavior. Reagan and Shultz have proposed the neccesity of a defense policy that will use nuclear weapons as a means to intimidate and blackmail the Soviets into changing their behavior.

But, just as we refuse to let the Soviets use their SS22s in eastern Europe, we cannot expect to hear their approval over American deployment of the Pershing 2 or MX missile.

If the President and Shultz believe such a policy will counter Soviet expansionism, they are as far removed from reality as the Soviets themselves.

Whether Chernenko will move his country to a reversal of a continual pattern of escalating hostility will be watched closely. What is certain right now is that the rhetorical interplay between Moscow and Washington must stop if constructive agreements can be made. Calling the Soviet Union the "focus of evil" as the President did last year, for instance, even if it does have a bit of truth to it, is anything but constructive.

The Reagan administration may believe that strength can deter war, but open dialogue and communication it must learn are the only means towards a lasting peace.

Letter to the Editor

War is anti-life, too

To the Editor:

On January 23, 1984, I attended the annual March for Life in Washington D.C. I went with the expectation of meeting people who believed in the value of all human life, as I do. I returned home very disillusioned. I had expected to meet people who were pro-life but instead I met only anti-abortionists.

As President Reagan stepped out of the White House to wave to the crowd of 60,000, the cheers and applause were deafening. I then realized that there is a crucial difference between calling yourself pro-life or anti-abortion.

I think people need to be made aware of this difference before they can decide what course of action to take and/or what to call themselves. In my opinion, anyone who votes for Reagan can't call themselves pro-life. With Reagan pumping money into defense, nuclear arms, Central America, etc., he cannot be thought of as a pro-life candidate. To me, pro-life means being for life regardless of age, sex, race, or place of residence (in Russia or in the womb.)

I think the biggest boost for both the anti-nuclear movement and the anti-abortion movement would be for both sides to begin perceiving all life as sacred and valuable and to begin working together to increase people's awareness and respect for all life, be it born or unborn. Only then will we have a pro-life movement in the truest sense.

Letters to the Editor

One man's opinion

To the Editor:

Four years ago, I didn't vote for Ronald Reagan. I wasn't sure *what* he'd do, to be honest. I didn't think anything could be done.

But Ronald Reagan moved me wrong. In a system characterized by paralysis, Ronald Reagan has acted. In a political culture fraught with vascilation, Ronald Reagan has led. In a country blighted by malaise, Ronald Reagan has made America feel good about America again.

Martin B. Tatuch

He doesn't scare easy

To the Editor:

Nuclear war. Great Depression. These were the cries of the opponents of Ronald Reagan in the past, and probably will be in the future. Since his inauguration, the economy has been revitalized. Inflation and interest rates are down, while employment is up. The nation's defenses are strong. Another Iranian-type hostage crisis was averted by the rescue of U.S. students in Grenada.

The only nuclear war the nation saw during Reagan's first term was on television. (And the day after that, Jason Robards was still kicking around.) Also, the only great depression in this country is that possessed by the members of our society that are still living in the 1960's.

I'm voting for President Reagan. Again.

Tony DeFeo

Want to ease some anxiety?

To the Editor:

This letter is in regard to your article, "Students Getting Job Anxious," Feb. 10.

It would definitely help some of those anxious students to know about an event coming up called Senior Survival Week. It is sponsored by the Student-Alumni Advisory Board and will take place from February 20 through February 23. It will be a four-night series of speakers, comprised mostly of alumni, featuring these topics:

Monday: Financial and legal advice

Tuesday: Job search information after graduation

Wednesday: Business Social Skills

Thursday: The Transition from college to the working world, and being a good alumnus

As Ray Palmer was quoted in your article, "Just don't expect the employers to come after you, as they do with computer science majors." Well, this series of speakers may help students be more prepared and make them the ones employers will come after.

Margaret A. Claveloux
Senior Survival Chairperson
Student-Alumni Advisory Board

We could be a top 10 team

To the Editor:

It is time that John Toner took the appropriate steps to solve the UConn basketball team's problems by firing Coach Dom Perno. I have followed UConn very closely for the last four years and Perno is in over his head in the Big East. It is time for Toner, Dee Rowe, and the alumni to wake up and make this needed change in order to ensure future growth in our program

Perno can be criticized on almost every facet of the game. Our offense is non-existent and it seems he has created a bunch of one-on-one artists. Two years ago, Lou Carnesecca described the Corny Thompson team as a potential top 10 team. Perno destroyed this by demanding the guards to look only inside to Corny and Chuck. Then when Karl Hobbs was wide open and had the opportunity to open up the middle, he wouldn't shoot for fear of being benched. This year's team is not so fortunate to have a big man, yet it does have a lot of talent that is being wasted. Even Earl the Pearl minus his injury is showing signs of stagnation.

It also seems that Perno makes substitutions at inopportune times and effectively destroys a lineup that is working well at the time. Case in point is the Villanova game in which every time we inched to within one point, a substitution was made. Another common Perno mistake is slowing down a game without looking at the basket. This was very evident in the Pittsburg game and especially in the first St. John's game. At this game, he demanded that the players use up as much of the shot clock as possible in the early going. The result was St. John's overcame a 10-point deficit in the first three minutes of the half.

Two years ago UConn led the nation in free-throw percentage. This year has been a disaster. Perno should make his players stay in the gym until their hands hurt and respectibility is restored.

Even Perno's strong spot has one major flaw. He is very good at switching defenses, yet the defense you start a game out in is an important decision. If you are getting burned early on while in the zone, you switch to man-to-man before you are down by 20. Granted, Syracuse and Villanova shot lights out to start each game, but Perno waited too long to make the necessary change.

Due to this assessment of Perno, I feel many potential recruits have shied away from UConn. The reputation Perno has acquired is well-known by potential recruits and does affect their decisions. By the way, good luck next year at Pitt, Charles Smith. And sorry, Corny, that your decision to turn down Dean Smith has resulted in your early exit from the NBA. Recruits now know that player development at UConn is slow at best.

With this in mind, I ask Mr. Toner to replace the "Class of '64 Hero" with a man from the outside. Where are you, Bob Saulsbury? Being a UConn fan is very frustrating and need not be so. UConn has had talent in the past and this year's team is talented also. Yet one obstacle stands in their way to success, and that is Dom Perno.

Commentary

Romance: then and now

By Maxwell Glen and Cody Shearer

WASHINGTON—Is romance healthy in America?

You can bet it is, judging from the lucrative week the confectionary, flower and greeting card industries are now having. On Valentine's Day 1984, consumers will buy about $102 million worth of flowers (3 percent of annual floral sales, $385 million worth of candy (it's the industry's largest sales day of the year) and 300 million greeting cards.

Yet behind the commercial aspects of affection is a more intricate story of ongoing changes in love and relationships. While marriages are increasing and divorces are decreasing for the first time in years, romance itself may not have recovered from the tumbles it's taken in the past decade. Romance may seem alive and well on Valentine's Day 1984, but some of its more studious observers voice caution about its prognosis.

In the interest of the season, and since our expertise on the subject is lacking, we asked some authorities on romance-- sorry, but they're not names from the pages of People magazine--to present their opinions on the state of courtship 1984. Herewith their mixture of offerings:

Lorna Sarrel, director of the human sexuality program at Yale University: "My sense is that, in comparing the 1950s to the 1980s, coeducation has been helpful in breaking down the misunderstanding and mystique that existed before. So today there's the potential for more intelligent, real kinds of relationships between men and women.

"Yet because of earlier sexual involvement in general, more young people have been scared by the pain of relationships ending abruptly. We tend to underestimate that, not realizing that it's almost as traumatic as divorce. So many young people I see are weary of trusting. I hope they will develop a cautious sense of realism.

Edward Brecher, author of several books on sexuality: "I'm very optimistic about love and romance. The ironbound corset of Victorian nonsense no longer inhibits couples from finding a kind of relationship that is appropriate to themselves. When I was young, courtship and marriage and affairs and all relations between men and women were like a military drill in which you did what the sergeant-- often the priest, rabbi and minister-- told you to do. Today it's like a free-flow dance, as it should be.

Dr. Shirley Zussman, sex therapist and past president of the American Association of Sex Educators, Counselors and Therapists: "The sexual freedom that was so hailed by a generation ago is now being reevaluated. Now many of that generation's members are questioning the value and meaning of the sexual freedom that permitted them to go to bed with a casual partner. I think such people are seeking more commitment and more of a relationship that has some degree of caring. It's a period of introspection for them.

"These people are working harder, and having more doubts and uncertainties about the future. They want someone to care about. And manyof them are thinking that they are not going to find it, so they are more anxious about what kind of future they're going to have. They are no longer 20 and they are wondering if they are going to be alone for the rest of their lives."

George Leonard, author of *"The End of Sex"*: "The whole idea of recreational sex is not so celebrated as it was two years ago. There is more celebration of romantic love. AIDS and herpes have made us all take a second look at the joys of unbridled, joyous sex. People are interested in intimacy, romance and commitment."

Dr. Leah Schaefer, author and therapist: "I think there's been a kind of leveling of sexual behavior and people are becoming much more concerned with love and romance than they ever were. As the world becomes more mechanical with computers and more frightening because of the arms race, it causes people to feel the need for personal and intimate relationships to a much greater degree. The horror that we face in the world forces us to find warmth and intimacy in our relationship."

Professor John Gagnon, author and sociologist: "I think it would be more reasonable if people were slightly less interested in love and romance in general. My sense is that a fairly large number of long-term intimate relationships are developed based on people not thinking enough of what their individual needs are."

Dr. Michael Quadland, sex therapist, Greenwich Village, N.Y.: "The gay community is in mourning this Valentine's Day, having lost 1,300 members to AIDS. People are depressed. People are not only mourning the loss of lives, but a sexual lifestyle that they enjoyed for a long time. They are also mourning the loss of good will of the heterosexual community which once again sees them as a threat because of the AIDS epidemic. Yet, there is a silver lining in all of this. Gay men have become much more careful about their sexual behavior. They are engaging in courtship again."

Some people might find the preceding bits of wisdom fairly instructive. Others will obviously find them wholly irrelevant. To both groups, one can only wish a happy holiday.

Glen and Shearer are syndicated columnists.

. . . E. O. Smith control

From page one

good program in the high school which will benefit the community at large."

Tom Moone, attorney for the Mansfield Board of Education, urged the Trustees to vote on the recommendations as soon as possible. He said Mansfield needs university approval before special legislation to grant the town repair funds can be passed in the state legislature.

"If action is not taken in this legislative session, yet another year will go by with the Smith School facility left without the necessary repairs," Moone said.

Moone further stated that the recommendations satisfy the needs of the university, as well as both towns. "All of the goals which the university's negotiators set for themselves and the university have been met in the recommendation," he said.

The two parties which oppose the recommendations, the Ashford Board of Education and the Smith Parents Association, also spoke at the meeting of the Institutional Policy Committee.

John Goodman, one Ashford Board of Education member, said that the town of Ashford no longer supports the recommendations. He said that the three parties need to reconsider various stipulations before Ashford would give its support. "Perhaps we should all take a second look at the problem before we act," he said. "Ashford recommends that the proposal either be tabled until reaffirmation by the two towns or dismissed.

In the last two months, Ashford has changed its position, according to Goodman, due to public pressure and disputes within the local government. "Since December, the town of Ashford, under public pressure as well as debate within the official organs of the town government, has decided that perhaps the proposal has not been thoroughly thought out," Goodman said.

Joan Barron, co-chairperson of the Smith Parents Association, warned the Trustees that if the proposals were approved without Ashford's support, Ashford might choose to send its students to another area high school. She said that, in light of projected enrollments, the number of students at Smith School would decline from 735 to 374.

"I think that what concerns me and what concerns the parents is whether we can run a comprehensive program and can maintain the depth and level of our education with only 375 children," Barron said, "I think not."

David Repass, co-chairperson of the parents association, reaffirmed the view that Mansfield and Ashford are not yet resolved on the issue. He told the Trustees, "If you make a decision Friday, then you have substituted your views for the people of Mansfield."

He further urged the Trustees to wait until the issues of renovation and Ashford's support have been resolved. He asked the Trustees, "Can we wait until we are sure of these issues before Smith School is abandoned to an uncertain future?"

Politician afraid of Reagan coattail

HAMDEN (AP)—U.S. Rep. Bruce A. Morrison, D-3rd District, said Monday after announcing his campaign for a second term that he's worried about the coattails of President Reagan.

Morrison, a liberal, former legal aid lawyer from Hamden, faces a strong challenge from Republican Lawrence J. DeNardis, also of Hamden, the man whom Morrison unseated in 1982.

"I'm worried about Reagan doing well in Connecticut," Morrison said. But he added, "I think that I will be judged on my record. That is the history of this district.

"That is the way in which I will be re-elected regardless of what happens at the top of the ticket," the 39-year-old Yale Law School graduate said.

DeNardis said later that Morrison's record is what makes him vulnerable. He said Morrison had voted for higher taxes and against increased defense spending advocated by the president.

DeNardis was elected to the 3rd District seat in 1980 and much of the credit for his victory over Democrat Joseph I. Lieberman went to the Reagan coattails.

In 1982, without the benefit of those coattails, DeNardis lost to Morrison by the slender margin of 1,687 votes out of more than 181,000 votes cast.

U.S. Sen. Christopher J. Dodd, D-Conn., also addressed the gathering and said that Morrison's district has been "targeted" by the Republican National Committee as one to be brought back into the GOP fold.

"They're going to try to buy back this district," Dodd said. "It's not for sale."

He said Democrats would have to mount a serious, grassroots campaign to keep the seat in the Democratic column because "we can't possibly raise enough money to match" the amount Republicans will spend.

DeNardis laughed and called the Democrats' financial concerns "pure and simple bull."

"I was outspent by the Democrats on both of my congresssional campaigns," the 45-year-old DeNardis said. "Democrats in Connecticut are rich. Republicans are the ones who really have to scramble.

Egg prices rise as chicken flocks die

By Chuck Lindberg
Campus Correspondent

The price of eggs has gone up about 50 cents a dozen in the last two months because of the disease avain influenza, which has been destroying chicken flocks in Pennsylvania, Virgina and Maryland, said a professor here.

"Because of the chickens being killed by the disease, there are fewer eggs being produced, therefore the prices are going up," said Everett Bryant of the Diagnostic Laboratory Extension Service. The price of a dozen eggs, about 77 to 90 cents before the disease struck, had not changed notably in ten years.

Avian influenza is a disease which kills chickens by causing respiratory failure. The disease can wipe out an entire flock in a week. Although it is deadly to chickens, the disease does not effect humans.

About 10 million chickens have been destroyed by the disease, including 3.8 million broilers and 6.2 million egg layers.

"We are beginning to see a shortage," said Bryant, "but as long as the disease doesn't spread we should see eggs reach a certain price and then level off. Also, there is a possibility of shortages occuring in some places, but they'll be handled by simply shipping in eggs from flocks farther west.

Valentine decorations and lovely women at Windham Hall (Larry Brownstein photo).

Selection committee formed to help replace V. P. Gillis

A 10-member committee has been appointed by President John A. DiBiaggio to advise him in the selection of a vice president for finance and administration.

DiBiaggio announced the search committee appointments at the monthly meeting of the Board of Trustees held at the Waterbury regional campus.

The search committee, chaired by Carol A. Wiggins, vice president for student affairs and services, will advise DiBiaggio in finding a replacement for Arthur L. Gillis, who left the university to become executive vice president at Brandeis University in Waltham, MA.

Harry J. Hartley, a UConn professor of education, has returned to his former post as vice president for finance and administration on an acting basis while the search of Gillis' replacement is being conducted.

In addition to Wiggins, some of the search committee members are Peter Halvorson, associate professor and head of the geography department, Hugo John, dean of the College of Agriculture and Natural Resources, and Pauline Fitz, dean of the School of Allied Health.

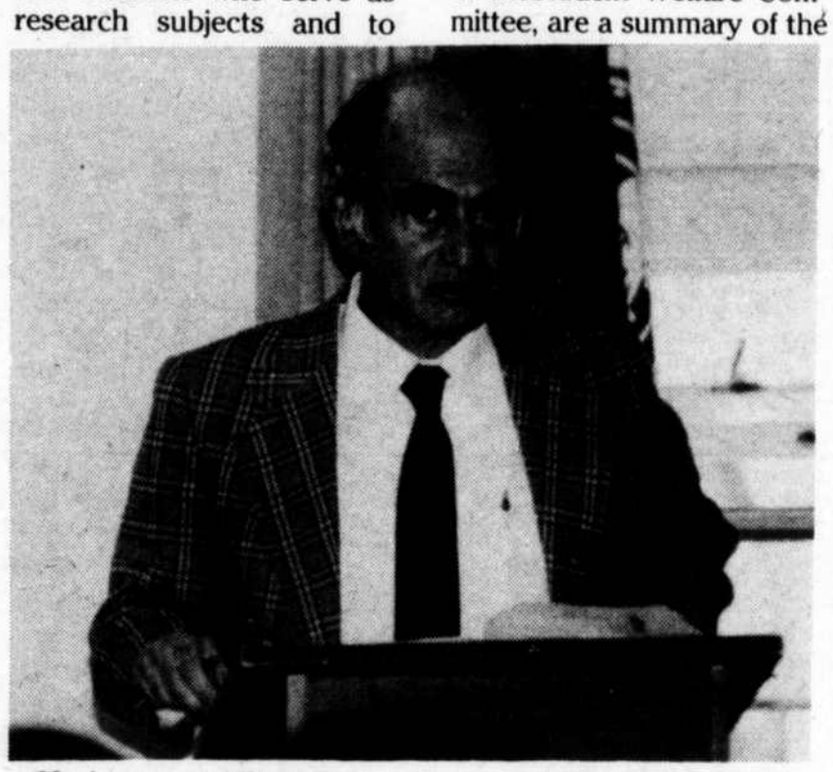
University Senate:

Guidelines to protect students approved

By Michael Kling
Campus Correspondent

The University Senate voted unanimously yesterday to distribute guidelines to protect students who serve as research subjects and to appoint a committee to study the proposed relocation of the School of Nursing.

The guidelines, proposed by Albert Cogen, chairperson of theStudent Welfare Committee, are a summary of the rights students have as research subjects. Under the guidelines, which apply to questionnaires and laboratory experiments, students must consent to participation in research, must be informed of any dangers, and can withdraw from it without explanation at any time.



Chairperson Albert Cogen proposed guidelines on Monday which will help protect student research volunteers (Larry Brownstein photo).

Also, non-participation as a research subject that is part of a class assignment cannot affect a students grade; students must be given equivalent work as an option.

In other business, the Senate decided to appoint a Special Committee of the Sentate, with no members of the faculites from either the School of Nursing or Allied Health, to study the proposed relocation of the School of Nursing.

The relocation has been proposed many times before, last year and throughout the 70s.

Chernenko succession:

Russians here predict little change

By Aimee Hartnett
Copy Editor

Two Russian language professors and a Russian student here all believe that Russia, under the rule of Politburo member Konstantin Chernenko, will be safe and non-eventful.

Samuel Orth, associate professor of languages, said he expects a continuation of Andropov's policies. "Andropov's successor is one of Brezhnev's men who was thought to have been out," Orth said. "He is too old to be very innovative.

"Andropov was obviously a very temporary figure," he said. "At least his successor will not have the blot of being associated with the KGB. Eventually, the party will have to move to someone younger."

Stella Minevich, a 6th semester accounting major who moved here from Russia five years ago, had a positive outlook. "[Chernenko] comes from the old Communists," she said. "If he is the leader, there may be an agreement between Russia and the United States. There will be no new changes with him; but a new leader would have made changes.

"Andropov was a ruthless leader, things got worse after Brezhnev died and he was elected," Minevich said. "Probably because he was a former KGB chief. There were more dissidents, and he never had time to make an agreement with the U.S."

"For us, the west, Andropov's death is a boon," said the director of the critical languages department, Borys Bilokur. "This is because the man had the KGB system behind him, and was able to strengthen it. The new leader will not be a former KGB chief and will be able to weaken it.

"Whatever transpired in the west—the attempted assassinations, like the Pope—were a result of him," Bilokur said.

Professor Bilokur finished by saying, "The new leader will be good for the Soviets. Chernenko is too old—he will only maintain the present state. A permissive east-west exchange would be the best solution."

BOG votes to up fee

By Owen Walker
Campus Correspondent

The Board of Governors Monday night approved a proposal to increase the Student Union fee beginning next fall.

"We need this increase in the budget to continue the quality of events offered to students here," said Doug Bernstein, vice president of policies.

Bernstein proposed that the Student Union fee be increased by three dollars, bringing the amount from $6.50 to $9.50 per semester.

This increase is much needed and long overdue, according to President Jennifer Osowiecki. "The fee has not been increased since 1980," she said. "We need the student support on this proposal. If we get the approval from the students, the increase could possibly go into effect next September."

The Board also discussed ways of promoting the Student Union and other facilities that are not currently being used by the students. "We're trying to get more students involved," Bernstein said.

Yale professor dies

NEW HAVEN (AP)—The Rev. Roland H. Bainton, a leading religious scholar on the history of the Reformation who served on Yale University's faculty for 42 years, has died after a long ilness.

Bainton, 89, succumbed Sunday at Yale-New Haven Hospital.

Bainton, who suffered from leukemia, was a well-known lecturer at Yale and elsewhere. A graduate of Yale's divinity school, he was its Titus Street professor emeritus of ecclesiastical history.

Bainton was one of the subjects of the House Unamerican Activities Committee investigations in the 1950s. He was an advocate of peace and worked against hunger, and helped refugees and wounded soldiers in World War I as a conscientious objector.

Kennedy, Gebhart propose new control over health care costs

WASHINGTON (AP)—A plan to bail out the financially troubled Medicare program by controlling health care costs instead of cutting medical and hospital insurance benefits for the elderly was proposed Monday by Sen. Edward M. Kennedy, D-Mass., and Rep. Richard Gephardt, D-Mo.

The plan picked up quick endorsements from a variety of groups representing the elderly and organized labor, including the American Association of Retired People, the AFL-CIO and the United Auto Workers Union.

Kennedy said Reagan administration plans to curb Medicare costs by increasing the size of premiums some Medicare beneficiaries have to pay and by reducing some benefits would be unfair to the aged.

Kennedy said that in the past, Medicare has stood as a promise to senior citizens "that their golden years will be free from the fear of financial ruin because of illness."

"Now President Reagan has proposed to break that promise," Kennedy said. "His prescription for Medicare is the bitter pill of steeper taxes on workers and fewer benefits and higher costs for the elderly."

The Reagan administration also had proposed taxing some employer-paid health insurance premiums, with the money going to the Medicare Trust Fund, which experts say may run out of money by 1990.

A government advisory commitee has also recommended raising the age for Medicare eligibility to 67 from 65 and increasing taxes on tobacco and alcohol.

Under the Kennedy-Gephardt proposal, benefits for the elderly would remain the same, but hospitals and doctors would face stricter cost control measures.

Last year, Congress approved a law that provides for paying hospitals for Medicare patients based on the illness, rather than the length of stay or the types of services they received.

The Kennedy-Gephardt bill would put payment for doctors' services for hospitalized Medicare patients on the same footing. Now private doctors treating hospitalized patients are paid by Medicare based on the type and number of services and visits they provide, rather than on the illnesses the patients have.

The plan also would require states to develop plans for holding down all hospital and physicians' costs, not just those for Medicare patients.

You don't need a stethoscope to diagnose the cause of health care cost inflation," Kennedy said.

A French soldier serving with the multinational force in Beirut looks through binoculars across the "Green Line" (UPI photo).

... marines to leave Lebanon

From page one

Earlier Monday, White House spokesman Larry Speakes said President Reagan was moving toward a withdrawal of the Marines to the ships within 30 days and that "we will do so if it is consistent with the political and military situation."

On Sunday, Weinberger said that "substantial numbers of Marines should be out by the end of this month, and probably it's perfectly feasible that the entire operation can be completed within less than 30 days."

But like Speakes, Weinberger did not say that a definite decision had been made on the timing of the withdrawal, although he made it clear that he wanted the Marines back on the ships within 30 days.

Sources said Weinberger gave three options to the White House on Friday for withdrawing the troops—one for a brief pullout lasting a few days, a second for a withdrawal taking 30 days, and a third that would stretch the process out, possibly over several months.

As these sources described it, Weinberger would have preferred somewhat more time for coordination but that he agreed finally to the 30-day time frame dating from last Saturday.

There were indications from some sources that the State Department previously had favored a longer withdrawal period, presumably to avoid the impression that the United States was backing away from its commitment.

Nine state organizations join to clean waste sites

HARTFORD (AP)—Nine Connecticut organizations have joined a national campaign aimed at strengthening hazardous waste laws and cleaning up toxic landfills, the groups announced Monday.

The groups launched their effort with a letter to members of the state's congressional delegation urging support for the "National Campaign Against Toxic Hazards."

"We demand our rights to protection from toxic exposure and believe that action must be taken on the local, state and national level to secure these rights and strengthen existing laws," the letter said.

Leaders of the groups anticipate that Connecticut's U.S. representatives and senators will support their goals because "the track record of the delegation is really very good," Kim Yanoshik of the Connecticut chapter of the Sierra Club said at a news conference.

But while they expect little resistance, the groups feel a "responsibility" to educate the delegation about the campaign and their specific demands, she said.

The campaign is calling for an expanded federal "superfund" to clean up hazardous waste sites, more protective testing requirements for toxic chemicals and alternatives to land disposal of toxic wastes.

The groups also say the federal government is focusing too narrowly on managing toxic wastes. More thought should go into reducing the amount of waste produced, they say.

In addition, the Connecticut groups plan to work together to support candidates who endorse their efforts and oppose those who do not, the campaign representatives said.

"If politicians don't support a policy that protects the public health, they should not be returned to office," said Randy York of the Connecticut Citizen Action Group.

Rev. Jesse Jackson may go to Nicaragua

FORSYTH, Ga. (AP)—The Rev. Jesse Jackson said Monday he has been invited to Nicaragua to help celebrate the rise to power of the leftist Sandinista regime there and will decide by the end of the week whether to go.

If he goes, the visit next Tuesday would come one day after the Iowa caucuses and exactly a week in advance of the New Hampshire primary, where Jackson ispushingfor a strong showing. Jackson said the invitation came from the Nicaraguan ambassador to the United States.

Asked if the timing had political overtones, the Democratic presidential candidate said, "I didn't invite me to go to Nicaragua and I didn't set Feb. 21st as the date for celebration."

Jackson's campaign got a boost earlier this year when he traveled to Syria and secured the release of a U.S. Navy flier who had been owned during a flight over Syrian positions in Lebanon.

The Sandinista government, which overthrew the U.S.-backed government of the late rightist President Anastasio Somozoa in July 1979, has said it will announce Feb. 21 the date for election of a president, vice president and a 90-member legislature charged with writing a new constitution.

That day is the anniversay of the slaying of Cesar Augusto Sandino, who fought against U.S. Marines occupying Nicaragua in the 1930s. The Sandinista's take their name from Sandino.

The U.S. government supports rebels from the Nicaraguan Democratic Force who are fighting to bust the Sandinistas, who the United States accuse of helping leftist guerrillas fighting the U.S.-backed government of El Salvador.

Youths arrested for first degree larceny

ENFIELD, Conn., (AP)—Two boys, arrested Sunday in a stolen car, are so small they had to take turns working the brake and accelerator because they couldn't reach the pedals while sitting at the wheel, police said.

The Norwich youngsters drove through thick fog from New London to Enfield on their way to Massachusetts before a police officer spotted them, police said.

The boys ages 10 and 13, were arrested on a charge of first-degree larceny and turned over to authorities at the Hartford juvenile detention center. Police did not release the boys' names because of their ages.

Police said both boys had records of arrests for car theft. The 13-year-old was arrested in a stolen car in Rhode Island last week, police said.

An officer who saw the 10-year-old walking into a convenience store at about 2:30 a.m. had stopped to ask why he was out so late, police said.

...Jordan to buy missiles

From page one

by Defense Secretary Caspar Weinberger for moving the 1,200 to 1,300 Marines to the ships and would approve it if Britain, France and Italy, the U.S. partners in the multinational peacekeeping force, concur.

He said the plan may be disclosed Wednesday or Thursday. Administration sources, who asked not to be identified, said the classified notice of the missile sale reached Capitol Hill late last week, beginning a process that gives Congress 50 days to block the deal. If either the Senate or the House fails to mount a veto in that time the sale will go through.

The Israeli government, which is weighing an administration appeal that it go along with the strike force, is preparing to mount a campaign against the Stinger missiles.

"They can very easily fall into undesirable hands," said an Israeli official here, who spoke on conditon he remain anonymous. "You can imagine the damage the PLO, Palestine Liberation Organization, could do with 20 of them."

Hey...Saalvadores: Happy V.D. You wild road tripping women!! But can Boston & New Haven really handle us! Danny, hope you can come!! Lori: If you can't please call! Kim & Liz have the phone, but you can't hear them! Maaargaret Another prom date awaits you! (white shoes of course!) Let's make plans soon! Enjoy V.D.! Love, Ginny P.S. Happy V.D. Lucy!

Schnuggles, Will you always be my Valentine, honey? I love you! Schnuggler II

To my buddy!!! Happy Valentine's Day!! I love you this much!! And love YOUR buns best! I see a picture in your near future! GRRR!! Hugs and kisses love ya, your buddy

Kathy K. in Tolland-missed you. Happy Valentines Day. See you soon. Love C-

Oh Madeline, did you think I might forget my fellow M & M (peanut of course!) muncher on Valentine's Day--of course not!! Hope you have a great one-Joanne

L.K. and M.C. Happy Valentine's Day! And thanks for helping me move. It's been great so far-let's keep it up! Love, Jackie

To my beloved Charlie, thanks for waiting for me! I'll be waiting for you in the linen closet's top shelf. Whip me, beat me, show me you care! Yahoo I love ya, Your P-tang

To my buddy,
Happy Valentine's Day!
Trillions of kisses,
Liefuex!!!!

John von Holland, Dan and Kathy-Happy VAlentines Day! You guys are the best! Let's get together again soon-we don't live that far apart!! Love Ginny

Second floor Batterson B. Happy Valentines Day-I still love you. I'm just two floors up-Come and see me! Jackie

CAROLE-A toast to empty bottles of Rumple Minze, the Bank of America, winter Squirrel watching, the smell of linseed oil and turpentine, being "RESTLESS!", tough faces, squirming, cheese in general, Firenze Italia, pizzas, Snickers. Love you, Melinda

Cathy from Beard: Wish you knew what your friendship means ("love" would be wishful doublethink)! Gordon Comstock warned me this might happen...Love, "Winston Smith".

TO MORADIN: Our crabby mage, can we play with you again soon? Love, your favorite adventureers, Annamir and Auriel.

Spunky, Thanx for always being there when I need a friend. Happy VAlentine. I love you. Kim

Dear Dinkledoink, Irregardless of what you think I still say a finger in the eye is sexy and an elbow to the head is an expression of love. If you remember this always, you will always agree that I'm the sexiest man you've ever met, and you will never doubt how very much I love you. Ski

Hal -I love is a matter of chemistry, is sex a matter of physics? 143, Laurie

Matt (Lancaster)-Happy, belated B-Day and Happy Valentines Day! You're a great friend and I hope all your dreams come true. Love, Nancy

Markie---Hope you have a super Valentines Day! I miss seeing your smiling face around here--what's up? Come on down! Joanne

Sheryl: To the witch at Halloween, the snowman during a storm, and the cupid on Valentines day..What can I say, you've heard it all. Thanx for always being there. Love Lois

Hey you, Jeannie A. in Beard B---You better be having a Happy Valentines Day or else.....or else.... or else I'll have to walk all the way across the quad and make you have a good one with a pint of Haagen Daaz!! Love, Joanne

Paul & MB HAPPY VALENTINES DAY! Hope it's a very special day for you both. Love always your friend M.

BO-Bag physics lab today, you can copy mne! Happy Valentines Day-Love, BIM

Bo-I hope your indices refract in optic lab today. Have a super Monday! -Love, BIM

Ricky-You know you're hard up when your only Valentine's personal is from your sister! Happy VD! Love, Fleckles

Pauli, Happy VAlentines Day and happy three and one half months anniversary. You make me happy!

LInda-Happy ST. Valentine's Day! Have a fantastic last semester. I'll miss you in the fall. Love, Joan

Alex-Two years formally, four informally and a lifetime to go. Thanks for being my bestest friend. Happy Valentine's Day!!! Love Forever, San-San. P.S. Hey Hershel, Have a good one!! Look out Breakers Heeeeeere's Reyes

Gazella-Happy St. Valentine's Day! Even though you beat me I know you love me. Love, Missy

Yut: I love you-the most caring, sensitive, warm, gentle, loving, cuddly, bestest Valentine evermore than yesterday but less than tomorrow. Happy V.D.! Always, Meem

To my voluptuous Valentine You give me the warm fuzzies. Be my Valentine today and everyday. From Joe

Kristen-Violets are blue, roses are red, Happy ST. Valentine's, Tangy is dead-Dano

Martina, Feliz Cumpleanos y Happy Valentines Day. Ten d':/irtido hoy. Quieres hacer shot of tequila? Chow. Tu companera de cuarto de Mexico

Tenacious Tina-sorry for being hobbled and not visiting you-but I value our friendship and hope we'll have more time together. Thanks for being a special friend

Thriller Roses are red-violets are blue-thanks for all the love-between me and you. May we grow one day at a time

Bradley, Happy Valentine's Day to my year round Valentine. I love you, Hon! Karen

Nick in Eddy-Happ Belated Birthday to an old man of 21. You realize that its downhill from here. Happy V-Day too. Love Anne

Hey Brenda, Why have a dud pud when you can have his roommate Ken? Sword

Bella, Happy Valentines Day. Te quiermo. Te amo-Jim

Barry, My feelings for you continue to grow every day. Be my Valentine today and always. Love you, Cor ('Woman')

Nancy, Belden 3rd Don't miss anymore of the exciting Wheeler B parties just because some guy insulted you at the last one. You're a psych major-You can understand why I was so rude. Happy VD!

Sheryl: My beautiful Valentine. Hope our love and friendship grows in the upcoming year. Love ya, Pete.P.S. LEt's have fun at Rosal's tonight!

Denise, not a day goes by without having thought of you and not a night ends without a prayer. No words, big or small, encompass my feelings. May our inseperable bond continue forever. Happy Saint Valentine's Day, John

SFL ONe down-? to go. Happy Valentine's Day! Love, the blond haired kid from your 105 class.

Yo! Guido and Rube, Happy VAlentine's Day !! Love, AK

Popsciclepastastuff-Yogi, Boo, and Sandy (that waitress I was seein) are gone now: Volks' to bikes; 'Stangs to 'Carlos; shoes to sneakers; I've gone EAST to the STOP; You've gone SOUTH to Marc's. Lizzie Park, Gay City, THE BARCLAY, "the cove" and E. Beach will never be the same. "Love me tonite and I promise..." Always 'member the second of the third. Farmer Brown's Boy

Anne, After two years you're still an egg beater. Good thing my shell is as hard as my love is strong. Happy V-Day love, Mike

Hi Guy-Just wanted you to know you're stuck with me as your Valentine today...always! I love you, SOF

Marc-In case you haven't realized it yet, There's a girl from Margale who loves you very much. She wants to know if you'll go to San Francisco with her. Well? Love, Susan

Happy Valentines Day to some really terrific friends-Janice, Kelly, Mia, Chip, MJ, Liz, Alan, Bob, Rob, Eric, Tim, Joe, and of course, Rosal's Man. Je vous adore! Kathy

FFLD 2nd-Now that Feb. 14 is here, you should be reminded that all Valentine candy must be checked through your RA Happy Valentine's Day-"K"

To my B.T. Guy, Je t'aime. Love, The Lush

Lisa, Happy Valentines Day WOW!! Your first personal. Maybe I'll give you more, who knows. With all my love, Dana

To my "Sweethearts" in NEXUS: With you my heart will never miss a beat! Happy Valentine's Day! Love, Beth XOXO

Janice: Happy Valentine's Day to a super friend and roommate. Love, Beth

To the only loser on this campus whose never had a personal. Here's your personal! Have a good day. Don't get any dead roses.

To Ole King Cole of Lafayette. Happy Valentines day from across the sea. Je t'aime! The Queen of France

Happy VAlentine's Day to all members of Wright B! 3 months from today finals are over! "FEITCTAJ" Love, L

You mean the world to me Tom. Every minute that we spend together strengthen my feelings for you. We've had our good and bad, but don't forget all those wonderful dreams we've shared. Remember-I'm here for you always. I love you lots. Happy VAlentine's Day. Forever, Meg

Barry-A million hearts couldn't hold all the love I have for you. Happy Valentines Day! Yours forever-Melissa

WOOZE: The past 7 months has been the best. All that fun, fighting, and falty erchining. Sorry I couldn't afford the rock-Hope the roses will do. I love you.....ALOT! Wanna play hide the..Don't worry-I won't say it! By the way, Happy Valentines Day. Love, Chris

Chris-I'm glad that I have been able to spend all 4 Uconn Valentine's days with you. I hope the trend continues. Happy Valentine's Day-Love, "K"

Kirk---Happy Valentine's Day to my fellow Monroeite! Hope you have a super day full of surpises and giggles! Joanne

KIM, To my favorite Valentine. HAPPY VALENTINE'S DAY! P.S. Good luck this week! Love, Dom

Sex Pistol-Happy Valentine's Day. I missed you this week again. But, we'll keep trying! Remember, I'm right upstairs. Love, S.G.

Aili, As a head resident you're number one. Happy Valentine's Day! Go out and Have fun! Love EPSTAFF

"Alice" and then some: To our dinners, "tagging," snowball fights, broken windows, water fights, quarters, illegal parties, and Colt talk. What's next? Happy Valentine's Day. Love, Teri

Hey Bookie, wierdo: Thanks for the necessary counselling, however distressing. Who's really the big brother here? Happy Valentine's day and good luck with Harvard Grad. Love, the man with dormant talents

Elizabeth, Just want to let you know I'm always thinking of you. Thanx for the past three months. Happy Valentines Day. Love Neil

A.N. Furst: A Happy Valentines Day, from me to you. I am intrigued by your exquisite physique and your luring personality. Your individual style sets you apart from all others. You know who I am, but you'll have fun guessing anyway. "The game has just begun." Hartford Campus. D.C. Please respond.

Dearest MCH on third Russell D, Please join me for a slab of cheese and romance tonight. Love your only Valentine, Pud

Hey Russell A. Happy Valentine's Day. Love always your RA

Hey Cuddlitoes, Is Noopies other girlfriend as cute as you? Noop, noop, noop, How about more drunken midnight Yatzee? Riverside's open soon! You forget? Just wanted to say I love you! Happy VAlentines Day. Yours, Andy

To my roomie Sheryl Happy Valentine's Day. Hope you're feeling better. Love, Teri

To the missionary: It's great to be back, though I do miss Greenwich (Westport doesn't compare!). Wishing you a happy Birthday and many job offers. Love, the boy from behind

Kathy S. Happy Valentine's Day and thanks for a fun weekend. Have a good week. -Rick N.

Lan (aka-Ham Hocks Jr.): The time sure has flown since that first Saturday in September. I felt so terrific after your answer and still have that feeling when you're around me. Everytime we're together I feel warm and special to be there. I've sensed some changes and I'm sure they've served to strengthen our relationship. I never want this to change-I LOVE YOU SO MUCH. Love Always, Erik

Dom, No matter where you go you'll always have me as your special valentine. I love you. Love, Renee

Mary, Thanks for the times we've shared and will share. You're a very special and beautiful girl. I love you. (Good deal) Kevin

Dear John, just a little message to remind you how our relationship means to me. I love you! Happy Valentines Day! Love always, Bear

Sean in Lafayette---
Roses are red--
Violets are blue--
Even though we're apart--
Hugs and kisses to you
Happy Valentine's Day!--
Love-P

...To share with me a place in my heart. RSVP Your friendly neighborhood page

Hi MEEMER, Happy Valentine's Day and Happy Anniversary. Hope this day is special for you! Thanx for the 5 most fabulous months ever. Whenever I think of you I smile from ear to ear. I hope the months to come are even better. I.L.U., L-E-YUT

C.P.D.-Here's to all the special moments and fun times we've shared, and to all those we're going to share. Happy Valentine's Day! Luv, Stubby

Hey "MESSED UP DUDE!!". You're not so messed up. Repairable nayway. March 10th, huh? We'll see...Happy Valentine's Day, Cutie!! Love, the Latenight Hallway Talker!

I watch from here; with my heart there. Where you contemplate the part, that will take in my heart. To forget two weeks in which I was caught; leaving me with only my dreamy thoughts. Thoughts of, if on this day of hearts, I would have the sunshine, that would come again when you say you will be just mine.

This poem I read one year ago
How to reply I did not know
The two of us were so torn apart
I could not promise you my heart
But our love refused to let us end
It's strenght taught us to be best friends
From here my love for you did blossom and grow
The depth of the feeling is like nothing I ever
dreamed I would know
Our worlds fused together too perfectly to part
Your life and your love came to occupy my whole heart
Now I can respond to the beautiful lines you once wrote for me
Truly yours and yours alone I will always be.

My Jewish Prince: Along with our Mothers, I'm so happy that we got together! Thanks-Happy VAlentine's Day! Love, NLB

KEN-HAPPY VALENTINE'S DAY!! ALL MY LOVE, KIM

LAURA, Happy Valentine's Day! This is our first one together with many more to come. I love you! Daryl

Ellen-7 month til forever..Happy VAlentine's Day! I love you-Ken

AMY- My real man image has been totally shattered. Forget about G.H. and quiche, someone leaked it out that I use coverstick! OH NO! Have a totally awesome HAPPY VALENTINES DAY. Love always, Jim

Jane of French B-I know that you said no Valentines Day cards but you didn't say no Valentines Day personals!!! Hope that we will always stay as close friends as we are now..Happy V.D.!! -Jo

GOOD LUCK JOANNE! HAPPY V.D.!!! LOVE, LINDA

Marine draftmens' complaints denied by Labor Board

GROTON (AP)—The National Labor Relations Board has ruled against the Marine Draftsmen's Association in two complaints raised since the union began its 8-month-old strike against Electric Boat.

The labor board said the union cannot fine its members who have returned to work, and it must change that regulation. The NLRB also concluded that Electric Boat was bargaining in good faith.

One-third of the union's 2,100 members have returned to work since the strike began June 9, and the shipyard is hiring others to fill jobs left open by the strikers.

Forty-seven striking draftsmen have returned since Feb. 6, when the company set a deadline of last Friday for welcoming strikers back to work, Vincent T. Malcolm Jr., a company spokesman, said Monday. The company also has hired 46 new employees to fill jobs held by strikers, Malcolm said.

Sixteen striking workers who wanted their jobs back were turned away because their jobs were no longer available, he said.

About 500 jobs remain open, while 1,400 workers are still on stsrike. Under the labor board ruling, the MDA will have to change its bylaws which allowed it to fine strikebreakers half their salary earned during a walkout. The issue had also been a source of contention after a similar 1979-80 strike was settled.

The union s practice of fining strikebreakers was challenged in a complaint filed by EB.

On the bad-faith bargaining charge, the MDA said EB raised false claims of a competitive disadvantage with its only rival for Navy submarine contracts.

EB spokesman Malcolm said the shipyard "was pleased that the good faith of our bargaining has been vindicated." Union president E. Roy Colville said he was not surprised by the outcome.

"We thought we had an outside chance of perhaps getting a complaint against the company," Colville said. "We still feel the company hasn't bargained in good faith."

Asked about the strikers returning to work, union secretary James Kelly said he was "encouraged by the low number," adding, "If that's all they were able to terrorize back to work, then I don't feel they did so well."

Kelly, however, said Electric Boat will have trouble filling all its vacancies because it will have to get workers from out of state.

State Supreme Court allows private committee meetings

HARTFORD (AP)—The committee that establishes rules for Connecticut's Superior Courts isn't subject to the state's freedom of information law and can conduct its business in private, the state Supreme Court has decided.

In a decision published in Tuesday's Connecticut *Law Journal*, the high court upheld a lower court ruling that said the Rules Committee of the Superior Court can conduct private meetings.

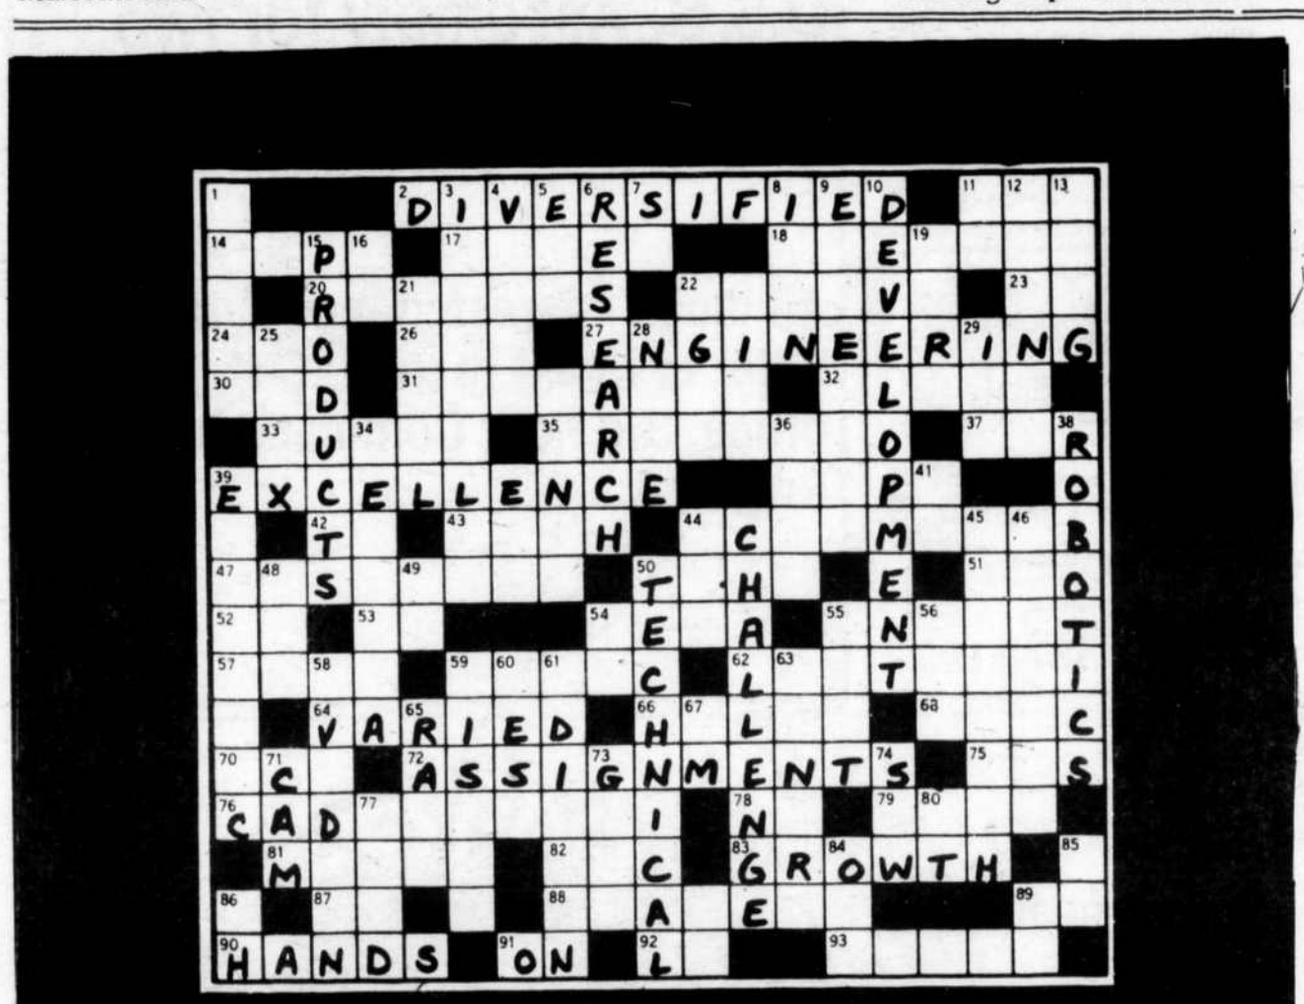
The ruling put to rest an issue first raised in November 1977. At that time, the state's Freedom of Information Commission received a complaint challenging the rules committee's secret meetings.

The FOIC subsequently ruled in December 1977 that the rules committee had to conduct its meetings in public and had to furnish minutes of its private meetings to the person who lodged the original complaint.

The rules committee challenged that decision in Superior court, where the FOIC decision was overturned, setting the stage for Tuesday's ruling.

The rules committee is made up of Superior Court judges. The high court noted that it is the committee's job "to consider proposed changes in the rules of practice for the Superior Court and to recommend amendments to the Practice Book, which may be adopted by vote of the Superior Court judges."

Once amendments have been adopted by the committee, they are published in the Connecticut *Law Journal* and are subject to public comment before their adoption.



What has 16 letters and means "exciting engineering"?

The answer is Hamilton Standard.

If you're the type of person who won't let go of a problem until you've got the answer, Hamilton Standard is your kind of place.

Young stresses dimensions of wind literature

By Andre Fox
Campus Correspondent

Music Department's Wind Ensemble and Symphonic Band will perform Wednesday, Feb. 15, at 8:15 p.m. in Von Der Mehden.

These two ensembles conducted by Gene Young demonstrate that wind literature is much more than schlock arrangements and experimental music.

The concert will reflect a sombre character with Wind Ensemble's rendering of Thomas Duffy's *The Quiet Tear*. Duffy, a former UConn graduate and currently Director of Bands at Yale University, composed *The Quiet Tear* as a musical eulogy. The piece recaptures a warm personal memory of Duffy's classmate Tony DiBenedetto, Vice President DiBenedetto's son a victim of the October bombing of Marine Headquarters in Beirut, Lebanon.

Young, associate professor of music and conductor Wind Ensemble and Symphonic Band, gave background information for Mahler's *Um Mitternacht* ,on the program for Wednesday's performance, "Mahler was a symphonic composer, but he also followed the German songwriting traditions of his predecessors Schubert and Schumann producing song cycles such as: *des Knaben Wunderhorn*, *Kindertotenlieder*, and *Das Lied von der Erde*. Its curious that although allusions have been made to the existence of two other songs for winds and voice, to date, *Um Mitternacht* is recognized by the Mahler Bruckner Society of Vienna as the only Mahler song written exclusively for wind instruments and voice.

Um Mitternacht literally means at midnight, or in the twilight of one's life. The song's text by Ruckert speaks about surrendering self to a Higher Power and acknowledging that Being holding watch over our lives."

The three other program selections are by Richard Wagner. Each embraces the traditions of High German Romanticism and contributes to the sombre tone initiated in *The Quiet Tear*. In *Elizabeth's Prayer* from Wagner's early opera *Tanhauser*, Elizabeth prays earnestly to the Blessed Virgin for the redemption of Tannhauser's sins, more specifically, his participation in carnal delights with Venus. *Huldigungsmarsch*, is also an original wind piece in homage to Wagner's patron Mad King Ludwig III.

Young explained, "Wagner composed *The Trauer Symphony* for the graveside funeral ceremony of Carl Maria von Weber. Wagner borrowed melodies from Weber's opera *Euryanthe*. Scoring this piece for winds only was a practical consideration since the ceremony was held outdoors. We wish to dedicate our performance of *Trauer Symphony* to the memory of Vera Berg on of our Syphonic Band members who died tragically over the semester break."

Soprano Regina Elliot's appearance with Wind Ensemble presents a departure from what one normally anticipates in a band concert. Elliot, a student of Edna Garabedian who recently sang the title role in the opera *Susannah*, joins Wind Ensemble

King sings for Hart

Carol King will perform a benefit concert for Democratic presidential candidate Gary Hunt at 7 p.m. and 9:30 p.m. at the Berklee Performance Center in Boston. Tickets are $12.50 and there is a limit of two tickets per customer. The 7 p.m. performance is sold out. Tickets can be purchased through Ticketron in Massachusetts.

The Club, directed by Gary Cavello, opens tonight at 8 p.m. in the Mobius Theatre (first floor Drama building). The 1984 Drama Department opener stars an all-female cast portraying men in an exclusive men's club. The musical runs through Feb. 18 with a 2 p.m. matinee Saturday. Tickets are $5 & $4 and are on sale at the box office: 486-3969.

Keith Davis, Curator of the Hallmark Photographic Collections, will lecture on the legendary photographic artists Andre Kertesz and Edward Weston at the Benton Feb. 15 at 4 p.m.

Wind Ensemble and Symphonic Band, conducted by Gene Young, will perform Wed. Feb 15 at 8:15 p.m. in VDM. Admission is free.

Political activist Shirley Chisolm will lecture Wed. Feb. 15 at 8 p.m. in Student Union Ballroom.

. . . dimensions of wind literature

From page 14

singing in *Um Mitternacht* and *Elizabeth's Prayer*.

Young distinguished between the Ensemble and Band, "There is no lesser group. Wind Ensemble and Symphonic Band do not represent first string Group A second string Group B. Wind Ensemble resembles what is leftover when you take away the strings in an orchestra. Each person in the remaining wind and brass sections functions in a soloistic manner. On the other hand, Symphonic Band most nearly approximates a full symphonic (orchestral) sound created solely from massed wind and brass instruments.

"The two mediums exemplify the contrast between chamber music and the grandiose. Composer George Rochberg, Emeritus Professor of the University of Pennsylvania, Pulitzer and Gugenheim winner scored *Apocalyptica* (1964) in homage to Edgard Varese for Symphonic Band. Later Rochberg rescored the work for smaller ensemble of winds and percussion adding little new compositional material and calling it *Black Sounds* (1965).

"The example illustrates that when the medium is altered, even though the musical masterial remains the same or similar, the impact and musical dimension changes. First-rate composers whether of the present or past realize that each medium be it symphonic band, wind ensemble, or orchestra possesses an individual aesthetic and unique sound potential."

Young stressed, "The five works programmed for Wednesday's concert are original scoring not arrangements. The precedent for fine wind literature was set a hundred years ago by great composers such as Mozart, Strauss, and Wagner. Audiences, band directors, and especially the musicians themselves should never accept anything of inferior musical merit. It is my hope that in this concert Wind Ensemble and Symphonic Band will be recognized as the medium they are...meaning that they are valid, viable medium capable of transmitting the entire gamut of human emotion from great elation to profound sorrow."

Nutmeg yearbook isn't just for seniors

By Dianne Gubin
Features Editor

Don't be surprised if someday somewhere someone comes up to you and says, smile, you're going to be in the *Nutmeg* yearbook.

This line might be from *Candid Camera*, but that's exactly what this year's yearbook promises to be, a candid snapshot of the people, places and events which were a part of everybody's life at the university this past year.

Everybody will be represented in the yearbook because *Nutmeg '84* will feature group dorm shots.

The book will contain six sections: an opening, seniors, student life, sports, activities and a closing section, according to Peter Garneau, yearbook editor. "It's sad," Garneau said. "That out of 3000 graduating seniors, only one-third of them have decided to be in the yearbook so far."

Sittings for senior portraits are going on now at the Nutmeg office, located on the second floor of the Student Union, until sometime in March. There is a $2 sitting fee which ensures that you are in the yearbook. This does not obligate you to purchase either a yearbook or a package of portraits.

Only senior portraits are included in the senior section, but undergraduates may also have their portraits taken by the studio at this time. Students have a choice of the traditional or contemporary style for their black and white portrait.

The senior section of *Nutmeg* will present seniors according to their respective schools and then alphabetically according to major. Appearing next to the senior photos will be information such as name, hometown and residence hall. December 1984 graduates have the option of being in this year's or next year's edition.

The cover of *Nutmeg '84* will feature a five-by-seven inch color photo of the campus on a sand-colored linen cover.

"*Nutmeg '84* promises to be more than just another yearbook," Garneau said. "It's a piece of artwork in itself." Twenty-five color pages are to be included in the opening, closing and division pages between sections of the book.

Spot coloring, a technique where any of 170 different colors are used for background and trimming, will be used on the division and senior pages. "This will also be the most colorful yearbook in UConn's history," he said.

The first UConn yearbook for the class of 1915 was 136 pages and contained a five-page ad supplement.

This year, *Nutmeg* is available for $21, which Garneau said is a $2 decrease from last year's price. The book will be on sale later this semester at the dorm photo sessions and at the yearbook office itself.

Samples of photos for *Nutmeg '84* include the men's soccer team (top) and a fraternity party (bottom) (photos courtesy of Monica LeCoz).

And if you're still in doubt about whether or not you should purchase one, just remember the excitement at the end of high school when everybody got to sign everybody else's yearbook. You might not want your friends to sign you *Nutmeg '84*, but it will serve as a tangible representation of your college years twenty years from now.

Four months of intensive training can add market value to your college degree.

A sampling of jobs our graduates hold:
LEGISLATIVE RESEARCHER, MUNICIPAL BOND PARALEGAL, REAL ESTATE MARKETING DIRECTOR, ESTATES & TRUSTS LEGAL ASSISTANT, ENERGY SPECIALIST, ANTITRUST SPECIALIST, CORPORATE BENEFITS PLANNER, ENVIRONMENTAL LAW SPECIALIST

- Through our corporate contacts, our national search team and our computerized placement service, we have placed over 5,000 of our graduates in law firms, banks and corporations nationwide.
- You can specialize in one of seven areas of the law.
- All courses include training in computer applications to legal practice.
- If we cannot secure a job for you in the city of your choice, we provide a substantial tuition refund.
- Financial aid and housing are available.

We'll be at your campus on April 3
Contact your placement office to see our resource book on law-related careers and to arrange for a group presentation or a personal interview.

A different way to spend a Saturday night in Storrs

By Daniel Davison
Campus Correspondent

After four years of restaurant reviewing, why shouldn't I eat at the best restaurants? I spent the first three years at the bad ones; the joints whose memory would burn in my heart for a painful four or five hours, or until a stop could be made at the nearest antacid store.

My favorite drug store was considering a reviewer's express lane for those like me who were required by desk-bound editors to catch the start of the warm-up act, even in the grimacing face of three-alarm heartburn.

First we had dinner at the Mansfield Depot, which is not on my list of bad restaurants.

Eat there. The atmosphere is a mix of nineteenth century American and early train, where rooms have names such as Caboose. The interior, wood paneled from floorboard to rafter, would be the envy of any Pullman car and chamber music is played in the background throughout the meal. The red shingled restaurant is located behind the white cinder block depot building where the fare is limited to Cheez-itz a la cellophane at 45 cents a pull from the vending machine.

Unless you are in a terrible rush, I would suggest choosing the restaurant over the vending machine, but be prepared to spend 100 times more for a dinner for two. Dinner at the Mansfield Depot does not usually include crackers (except perhaps with the French onion soup), but will include homemade bread still warm from the oven and seasoned with a pinch of rye, a fine dry Connecticut Seyval Blanc, appetizer, dessert—try the Mississippi Mud pie—as well as a delicate salad. The entrees start at $9.

Asking the time, my companion noticed that we had barely three minutes for dessert and the drive to Jorgensen Auditorium where Spyro Gyra was performing that night. I had so much wanted to enjoy the bar, but why take your time when you can rush?

One can always spot a reviewer because he is in a rush (worried about missing the warm-up act) and scribbling on his clipboard-sized pad. He probably glances at his watch often, and his conversation is heavily salted with gastronomic trivia. These bad habits a good reviewer will avoid as they betray his identity, not to mention bore his companion.

It is a 10-minute drive from Mansfield Depot to Jorgensen Auditorium along route 44A, longer if it is raining and foggy, as in my case, with one windshield wiper broken and the other falling off en route.

But trouble is to be expected, as this is Storrs. A reviewer soon learns that he can count on things going wrong here. But two wrongs can make a right; the concert was delayed an hour on account of fog. I'm not quite sure how fog delays a concert, but it saved my neck.

On this occasion, I am not averse to mentioning the opening performer, Trent Arterberry, who received a standing ovation and has performed at Jorgensen several times. He is not a strict mime, as he uses sound to help the illusion, which audiences always enjoy.

Spyro Gyra left me gawking at their technical ability which never gets in the way of their good time on stage. The band played with all kinds of energy, which I'm sure you have heard said of many electric bands. Gyra's drummers shattered their sticks in the frenzy, while other bandsmen kicked over instruments and sweated a lot. I am still amazed by the simultaneous drumming and gymnastics of the auxiliary percussionist.

All the band's flailing incited me to dance, so my companion and I walked up the street to the Commons Lounge for canned disco and drinks. To those of you who are under age, let me warn you against passing off fake identification at the door. They are on to you. The Commons has instituted a riot act which promises confiscation of your ID, a call to the police, a military hearing and a summary hanging if found guilty. That would ruin an otherwise enjoyable evening.

But for those of you who are old enough, the Commons is still the place to end up on a Saturday night. Two visiting break dancers from Bridgeport did a demonstration.

Commons is convenient to those with a limited radius of activity, and is a safe alternative to driving after a particularly jolly evening. But for those who do drive, parking can be a problem.

The evening in Storrs drew near a close, and the entertainment took on a more personal flavor, which this reviewer will not recount. There are limits to what a reporter's stipend can coax into print.

ALL-PRO CAREER MOVE

NATIONAL SECURITY AGENCY ★ UNITED STATES OF AMERICA ★

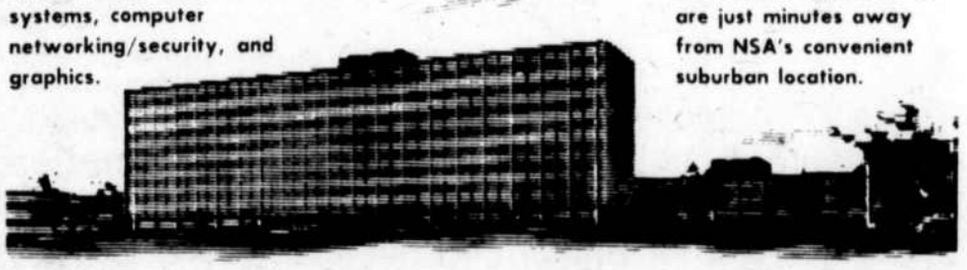
NSA OFFERS YOU A HEAVY-HITTING CAREER OPPORTUNITY IN THE FOLLOWING DISCIPLINES:

ELECTRONIC ENGINEERING
There are opportunities in a variety of research and development projects ranging from individual equipments to very complex interactive systems involving large numbers of microprocessors, mini-computers and computer graphics. Professional growth is enhanced through interaction with highly experienced NSA professionals and through contacts in the industrial and academic worlds. Facilities for engineering analysis and design automation are among the best available.

COMPUTER SCIENCE
At NSA you'll discover one of the largest computer installations in the world with almost every major vendor of computer equipment represented. NSA careers provide mixtures of such disciplines as systems analysis and design, scientific applications programming, data base management systems, operating systems, computer networking/security, and graphics.

MATHEMATICS
You'll work on diverse agency problems applying a variety of mathematical disciplines. Specific assignments might include solving communications-related problems, performing long-range mathematical research or evaluating new techniques for communications security.

THE REWARDS AT NSA
NSA offers a salary and benefit program that's truly competitive with private industry. There are assignments for those who wish to travel and abundant good living in the Baltimore-Washington area for those who wish to stay close to home. Countless cultural, historical, recreational and educational opportunities are just minutes away from NSA's convenient suburban location.



GO FOR IT ALL

To find out more about NSA career opportunities, schedule an interview through your college placement office. For additional information on the National Security Agency, write to National Security Agency, Attn: M322, Fort George G. Meade, Maryland 20755.

. . . too much money

From page 20

Hey, the teams that go to bowls and to the Final Four have got payment enough just from the exposure from the tube. That helps them recruit the blue chip high school athletes, plus they also receive more monies from the Alumni every time they go to Orange Bowl, Rose Bowl or Final Four. To have those schools receive such tremendous size checks every New Year's Day or in April puts them to far ahead of the competition. What we're doing is creating dynasties; haves and have not. What we're going to end up with are about 50 universities that are legit heavyweights, but no light heavyweights, no welterweights. Instead we drop right down to flyweights!

By distributing the dollars, we have a better chance of achieving parity throughout Division I and that is good for the sport.

I also believe student-athletes should be forced to maintain an orderly process toward a degree and not be allowed to take all the "Mickey Mouse" courses like shop and advanced shop where in shop you build chais and in advanced shop you print it.

Each year the student-athlete must have a certain percentage of quality credits. They can't just be numbers. There must be quality inside the credits that lead to a degree. I don't care if it takes five years as long as there is normal progress toward a desired degree. That way, the kid isn't just left hanging after four years, a basket case who still needs 60 to 70 credits because he took nothing but garbage courses all along the way. When he gets through with his four years he would at least be close to the brass ring, maybe six or eight credits short, but no more than that.

Too many people are not getting their degree. Seventy-one percent of the football players in the NFL don't have college degrees. Why? There's something rotten in Denmark, that's why.

The colleges ought to be trying to help the student-athlete not just use them. Too many schools give athletic-ships, not scholarships. These kids go out and attract the bright lights and TV cameras for the school, so why shouldn't the school pay them back?

CBS paid $90 million to telecast the NCAA Tourney for three years. That's tremendous money, mega-dollars from the tube, and it's only fair that some of those dollars be channeled back to maintain parity in Division I, and to make sure these kids get their degrees.

. . . Huskies bomb Framingham

From page 20

from the start that this was not going to be their night. The win moves the Huskies to the .500 mark for the first time this season with an overall record of 12-12. Framingham State drops to 6-11-1 on the season.

The win was a total team effort for the Huskies as each shift scored at least two goals. Even Tache got into action, assisting on a goal by Mike Polaski at 9:15 of the second period.

"This win was a team effort, everyone seemed to add something," Coach Ben Kirtland said, "We played with intensity and had many opportunities to score. If you take as many shots as we did tonight, the goals are going to come."

And come they did. Senior scoring sensation Ken Hunt started things off for the Huskies at 3:46 of the opening period on a rebound of a Ken Landry shot. The game winner was scored by Bob Falvey six minutes later on a power play goal.

From then on, the floodgates were open. The Huskies scored two more goals in the opening period within 30 seconds of each other. Landry finished the period with a goal at 17:19.

The biggest surprise of the game was the solid performance of Beckwith. The sophomore has so far this season has showed little in the way of scoring. Monday, however, he played with confidence and his hard work payed off with his first career hat trick.

This (the hat trick) is great for Rick because it builds his confidence a great deal," Kirtland said. "I always knew that he was capable of doing something like this and felt he would contribute to the team. It seems that he finally has started to show us what he can do."

"I'm glad I could contribute to the team and to the win," Beckwith said. "Our line worked well all night and we accomplished what we set out to do. We'll just have to try and keep it going this way."

The victory is important for the Huskies because tonight they face Division II foe, Merrimack. Merrimack is currently ranked among the top eight teams in the Division.

U.S. hockey team wins first game

SARAJEVO, Yugoslavia (AP)—Canada, Czechoslovakia and the Soviet Union clinched spots in the Olympic hockey medals round Monday, while the defending champion United States won its first game of the tournament.

Canada routed Norway 8-1 in the afternoon. Czechoslovakia eased past Finland 7-2 in the evening, sending the Canadians and Czechoslovakia, both 4-0, into the medals round.

Czechoslovakia, which got two first-period goals from Frantisek, Cernik, and Canada meet Wednesday for first place in their division.

"We've worked so hard training and practicing and we got so keyed up for the Olympics," said Canada's Dave Gagner, who scored three goals and set up two others.

Pat LaFontaine scored three goals, David A. Jensen had two for a U.S. team that broke open a tight contest midway through the third period to down Austria, 7-3.

"We haven't exploded this whole time. We finally did," said Ed Olczyk, who had four assists.

Thoreau's Maine Woods

We will explore Thoreau's life, philosophy, and literature while following his travels in Maine by canoe and backpack for two weeks in August. Cost of $300 inciudes everything. Earn three crdits in the fall term.

FINANCIAL AID DEADLINE

Students are reminded that February 15, 1984 is the deadline for applying for Financial Aid for 1984-85.

Incoming freshmen must submit only the Financial Aid Form(FAF). The Financial Aid Form(FAF) must be sent to Princeton, New Jersey, and the University Application must be submitted to the Financial Aid Office prior to February 15, 1984 in order for financial aid awards to be applied toward the fee bill which is due on July 15, 1984.

All students who intended to apply for a State Guaranteed Bank Loan should submit their Bank Loan Application at the same time they apply for financial aid. Bank Loan Application at the same time they apply for financial aid. Bank Loan Application should be picked up at participating banks. Application for Pell Grant is included on the Financial Aid Form (FAF). A separate application is not required if the Financial Aid Form (FAF) is completed. Students are reminded to submit their Student Aid Report (SAR) for the Pell Grant to the Financial Aid Office as soon as they (student) receive it from Iowa City. The Financial Aid Office must have the SAR, regardless of the student's eligibility for the Pell Grant. Iowa City does not sent a copy of the SAR to the Financial Aid Office. All students who are enrolled on at least a half-time basis and who have not previously received a Bachelor's Degree from any institution are eligible to apply.

Deadline for graduate students who attend the University of Connecticut as an undergraduate is February 15, 1984. Other first time graduates is May 1.

DO YOU CARE?

U·S·G· DOES·

UCONN's proposed 1984-85 budget is being voted on soon in the legislature. A public hearing will be held at the State Capitol on Wednesday, Feb. 15th, at 7 p.m. If you care about Connecticut's history of inadequate funding for Higher Education, U.S.G. is giving you a chance to show your support for our cause. We are sponsoring Free Buses to this hearing, to show the lawmakers that we do care about a quality education at a reasonable cost. The buses will leave the Student Union at 6:15 p.m. on Wednesday, the 15th,and return after the hearing. Show up and prove that the students do care, because as far as the legislators are concerned, students don't know the facts, and aren't concerned enough to find out.

We intend to show them just how wrong they are!

American figure skater favored to win gold

SARAJEVO, Yugoslavia (AP)—Scott Hamilton, America's main man for a figure skating gold medal, traced the best figure eights in compulsories Monday to lead the pack at the XIV Olympic Winter Games.

"Yahooo! I've been second all the time, always second, second, second," Hamilton crowed after winning all three compulsory figures-- something he has never done in international competition.

Jean-Christophe Simond of France, who usually beats Hamilton in this event, was second, followed by West German Rudi Cerne. The two other U.S. men, Brian Boitano and Mark Cockerell, were eighth and 18th.

The 23 men in the singles competition will skate short programs Tuesday night, just before ice dancing ends with the freestyle event.

The United States picked up its first medal of the Games Sunday night, when Kitty and Peter Carruthers of Wilmington, Del., earned a silver in pairs.

In ice dancing, the question no longer is, "Will Jayne Torvill and Christopher Dean win the gold?" It's "How many perfect scores will the British world champions get?"

At last month's European championships in Budapest, their dancing to Ravel's "Bolero" earned eleven 6.0s of a total of 18 scores.

Americans Judy Blumberg and Michael Seibert were third in dance and could pick up a second figure skating medal for the united States with their exotic dance to Rimsky-Korsakov's "Scheherezade."

The two other U.S. ice dancing teams, Carol Fox and Richard Dalley and Elisa Spitz and Scott Gregory, were sixth and 10th respectively.

Hamilton, 25, is picked as a sure shot to give America its first men's figure skating gold since David Jenkins in 1960.

The compulsories require skaters to trace variations of the basic figure eight, first on one foot and then the other. One of the biggest faults a skater can make in this event is to "two-foot" a figure or put the free foot on the ice while tracing.

Men skate for medals Thursday night, the same night the women skate their short program.

Hamilton said he reaped plenty of inspiration from the Carruthers' silver medal performance in pairs.

Hunt improves on and off ice

From page 20

UConn has allowed me to improve—both on and off the ice. I know I made the right choice.

The final decision to come to UConn was helped by the recruiting efforts of former head coach John Chapman and his staff.

"It was great knowing that a school wanted me and UConn definitely showed that they wanted me," Hunt said. "Showing interest in someone is important in recruiting. You have to make a person feel important and they did that with me."

All the work that went into bringing Hunt here has paid off. He has turned into one of UConn's most prolific scorers, challenging many of the current records with consistent performances each night. The list of records he is attempting to break is impressive: most career points, most career assists, most season points and most season assists. And as a freshman he placed fourth on the all-time freshman assist list.

"It would be great to come out of here with some type of record," he said. "I'm proud of what I have done so far and want to leave my mark on UConn."

Hunt isn't the only one proud of his accomplishments. Current head coach Ben Kirtland has watched him grow both on and off the ice and is pleased with what he has seen.

"Kenny has developed both mentally and physically as a player and has really grown up since he got here," Kirtland said. "He has emerged this year as a real leader and complements the two captains (Brian Hitchings and Doug Stanley.)

When he got here his freshman year, he was a bundle of raw talent. Once he got adjusted to the system, he made a conscious effort to improve. He worked out religiously and wanted to work on the physical aspects of the game. It really shows in his play how hard he has worked," Kirtland added.

Hunt plays right wing on the Huskies most productive line, along with Hitchings and Mike Anthony. The line is threatening to break the school record for most points in a season by a line, set by Kirtland's line in 1978-1979 when he played for the Huskies, of 113 points.

"Ken is a motivator for us, not only for our line but the entire team," Hitchings said. "He gets the team fired up and makes things happen on the ice. He definitely is an asset to the team."

Hunt's enthusiasm can be seen just by watching his mannerisms on the ice. If the team's momentum appears to be faltering, he takes things into his own hands, shouting words of encouragement to his teammates and trying his best to get the team pumped up.

No better example of this can found than in the game against Holy Cross, Jan. 24. After the second period the Huskies were behind 5-3 and fighting to stay in the game. Between periods, Hunt took on the role of cheerleader, pysching the team up so much they scored five unanswered goals in the third period.

"Ken asked me if he could have a few minutes alone with the team before the game and fortunately for us, he was able to fire the team up," Kirtland said. "He is a take charge type of player and a good inspiration for the rest of the team."

With the season ending in a few weeks, Hunt has begun to think about his life after hockey. Nothing is definite, but the idea of playing hockey after graduation has not been totally ruled out, he says.

I'm going to just wait and see what happens after school ends," Hunt said. "I will pursue all my options, such as European hockey or another league. If hockey doesn't work out, I will always have my education to fall back on."

And by the time the season ends, Hunt should have a few records by which to remember his UConn hockey career.

TALK TO DRAPER

Tuesday, March 6, 1984
University of Connecticut

Recent graduates—join some of the nation's most imaginative, inventive people at Draper Laboratory. As the world renowned research center, located in the Technology Square complex in Cambridge, Massachusetts, we're leading the industry while breaking new ground in fascinating and rewarding technologies including:

Control Systems Design
Software Development/ Evaluation
Analog/Digital Design Engineering
Spacecraft Dynamics
Manufacturing Systems
Guidance and Navigation Analysis
Electronic Systems Engineering
Robotics/Automation
Structural Engineering
Optics

At Draper, we handle a volume of more than 130 million dollars each year and employ over 1775 people throughout the Laboratory, many of who hold advanced degrees.

If your background is in **Electrical Engineering, Mechanical Engineering** or **Computer Science,** look into being a part of our hands-on "working laboratory" environment.

To arrange an interview, visit your Placement Office, or send your resume to Dr. Daniel E. Gladkowski, Dept. C, The Charles Stark Draper Laboratory, Inc., 555 Technology Square, Cambridge, MA 02139. We are an equal opportunity/affirmative action employer, M/F.

Huskies score 13 goals, Beckwith tallies three

By Jim Acton
Staff Writer

Things couldn't have gotten much better for the men's Hockey team or much worse for Framingham State than they did Monday as the Huskies trounced the Rams 13-1 here.

To understand just how well the Huskies played (or how poorly Framingham State played) consider the following:

- The Huskies scored five goals in both the first and second periods and three goals in the final period.
- 10 different UConn players scored goals, which included a three goal game from Rick Beckwith (his first as a Husky) and two goals from Paul Belliveau.
- A total of 14 penalty minutes were handed to the Huskies (eight to Tim McCann alone) while the Rams received just six minutes. But, the Rams failed to convert on any of their power play opportunities, including a four minute stretch with a man advantage.

21 assists were tallied on the 13 goals. Dave Shepard had three assists along with two assists from four different players.

- Goaltender Peter Tache was faced with just 24 shots while two Framingham goalies were faced with 45 (unfortunately for the Rams, 13 of those shots got by).

Framingham was never in this game and was obvious

See page 18

Need hold on sports

Believe it or not, there is a flip side, a serious side to Al McGuire. So let's stop and talk a minute about something that's been on my mind for some time, sort of nagging like the water faucet that drips in the night, or the headache that gets a little worse each day until you finally reach for the aspirin.

I really think it's time for the presidents of the universities to take a firmer hold on the whole collegesportsworld where monies and the future of college athletes are concerned. Cut across all the lines of conferences, alumni and TV to straighten out a mess that affects more young people's lives every year.

Al McGuire

First of all, I've always believed that all monies from the bowl games and the NCAA Basketball Tourney should be divided between all of the 275 Division I Schools. Last year, the Final Four got $550,000 each, and when you talk about the Rose Bowl or Cotton Bowl, you're talking millions. So there's more than enough pie to go around. Powerhouse schools like Kentucky or North Carolina wouldn't miss a smaller piece but for schools like Nothern Illinois or Xavier, a $30,000 to $50,000 check would be like a parting of the Red Sea.

Also, I think a percentage of those monies should be kept in escrow by the schools for any student-athlete from an income-producing sport who has to return to the classroom to finish getting his degree after his senior year. The student-athlete should be able to finish up his degree at school of his choice with the only requirement being that he must pass his courses.

See page 18

U.S.A wins first gold medal

SARAJEVO, Yugoslavia (AP)—"Now America's got it."

Debbie Armstrong won her gold medal, the first for the U.S. Team at the Winter Olympics, with a tough, twisting tour down the side of a mountain on Monday.

"America has been waiting for this," someone shouted to the beaming Armstrong at the fish line immediately after her victory became apparent. "Now America's got it," Armstrong fired back.

After days of poor hockey, weather delays for events in which the American team was expected to do well, and poorer than expected performances by some team members, Armstrong and the other members of the giant slalom team came through in record smashing fashion.

Her gold medal was the first for an American woman in 32 years in the giant slalom and the first in any Alpine event at the Winter Games since 1972. She lead a 1-2-4 placing that was the best ever for the U.S. in any Olympic Alipne event outduelling veteran Christin Cooper, who won the silver.

Armstrong, 20, of Seattle, Wash., was an unlikely hero. A relative newcomer to international competition, her best finish in World Cup competition was a third earlier this season. Cindy Nelson, the acknowledged leader of the U.S. women's team, had predicted that Armstrong would be the star of the U.S. team within a year or two, but Armstong is now ahead of that schedule.

Cooper was the leader after the first run, holding a slim one-tenth of a second lead over Armstrong. Two of the favorites, American Tamara McKinney and Switzerland's Erika Hess, had virtually skied themselves out of the medal picture. McKinney was eighth after the first run, and Hess was 11th.

McKinney clocked the best time on the second run, a 1:11.72, but it wasn't enough to get her a medal. Perrine Pelen of France claimed the giant slalom bronze medal for the second straight Olympics, and McKinney was in fourth place.

On the second run, Armstrong put together another near-flawless effort. Cooper, skiing immediately after her, slipped at the fifth gate, falling back onto her skis. She recovered, but the mistake cost her precious seconds. Armstrong's second run was clocked in 1 minute, 12.01 seconds; Cooper came in at 1:12.51, a half-second slower.

It was the United States' first gold medal in Olympic Alpine skiing since Barbara Cochran won the slalom in 1972. It was the first gold for an American in the giant slalom since 1952, when Andrea Mead-Lawrence won at Oslo, Norway.

Hunt leads Huskies

By Jim Acton
Staff Writer

A quick glance at our hockey roster and you might get the impression that the only athletes interested in playing hockey at UConn are from Massachusetts. However at least one team member from the Bay State believes hockey talent is on an equal par in both New England states.

"Both Massachusetts and Connecticut have histories of great hockey," senior Ken Hunt said. "It's just that hockey is emphasized more in Massachusetts and we are exposed to it year around. On the college level there are no major differences."

Hunt has been exposed to the hockey of both states. His choice to come to UConn was based on many factors, but most importantly he felt that playing at a Division II school would give him the best opportunity to improve.

"Some people may not believe it but UConn is a great place to play hockey," the Saugus, Mass., native said. "Someone's always asking me if I mind playing here on the open rink. The only thing I can say is that if you really want to play, the rink won't make a difference; it's the people you play with."

Besides UConn, Hunt had also considered attending St. Anselem's and the University of New Haven. His choice was based on a combination of athletics and academics.

"In high school, I didn't want to think of hockey ever ending, but my parents convinced me to think of academics," he said. "Playing at
